2019 SUSTAINABLE BUSINESS SUMMIT

SPEAKER BIOS

Including Presentation titles and Sponsors & Exhibitors Directory

PRESENTED BY
WESTERN NEW YORK SUSTAINABLE BUSINESS ROUNDTABLE

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

ADD ON MORNING WORKSHOP
2ND FLOOR EAST

10:00 -11:00

Sustainable Basics to Build Your Business & Reduce Your Footprint, Introduction by Mark Shriver

Known as the Triple Bottom Line - People, Profit, Planet, sustainability lies at the nexus of social, economic, and environmental initiatives. In this add on workshop, will discuss the basics of sustainability and potential drivers for pursuing sustainability initiatives. The sustainability management cycle will also be discussed to provide companies a framework to find innovative ways to be profitable as they also address environmental and social issues.

KIM BAWDEN

Senior Staff Engineer, New York State Pollution Prevention Institute

In her role as a Pollution Prevention Engineer, Kim supports the business assistance programs by performing manufacturing process assessments, material & energy balances, evaluating environmentally preferable & cost-effective alternatives and sustainability certification/scorecard compliance. Kim leverages previous experience in various manufacturing engineering capacities while at Harris RF Communications and Microwave Data Systems (MDS). Ms. Bawden has a BS degree in industrial engineering, an ME in engineering management and an MS in sustainable systems. Certifications held include a Life Cycle Assessment Certified Professional (LCACP).

KEN SCHLAFER

Technical Program Manager, New York State Pollution Prevention Institute

Ken Schlafer is a technical program manager working with NYS industries to reduce cost and environmental impact, provides consulting support for sustainable supply chain, and conducts product evaluations designed to have a positive impact on the environment. Ken has over 25 years of diverse industry experience with a strong background in data analytics, industrial engineering and Lean Six Sigma. He holds a M.S. in Engineering and Global Operations Management from Clarkson University and a B.S. in Chemistry from the University of Buffalo.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

PLENARY
4TH FLOOR BALLROOM

12:00 - 1:30

WNYSBR INTRODUCTION

MARK SHRIVER

DIRECTOR OF SAFETY AND ENVIRONMENTAL AFFAIRS, CURBELL INC. & PRESIDENT WNYSBR

Mark Shriver has played an important role in the integration of best-in-class safety practices and business sustainability programs at both Curbell Plastics and Curbell Medical Products. As one of the founding members of the SBR, Mark represents Curbell and its sustainable successes; he utilizes his experiences to aid other businesses and organizations in embracing business sustainability practices in order to create a more environmentally and economically resilient Buffalo Niagara Region.

WELCOME REMARKS
MARIA WHYTE

ERIE COUNTY DEPUTY COUNTY EXECUTIVE

Maria Whyte has served in this post since January 2015 and is the first female in a generation to hold the title. As DCE she advances the County's most significant economic development projects and provides strategic operational support for the County's many departments. In her role as DCE, she is best known for her work to negotiate a $6 million deal to acquire 150 acres of land at the site of the former Bethlehem Steel Company in Lackawanna, NY.

MODERATOR
RYAN MCPHERSON

CHIEF SUSTAINABILITY OFFICER
UNIVERSITY AT BUFFALO & WNYSBR BOARD MEMBER

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

(CONT.) 12:00 - 1:30

KEY NOTE PRESENTER

Designing your Business for a Circular Economy

PHILIP IVEY

GLOBAL STRATEGIC SUSTAINABILITY LEADER
MILLIKEN FLOORING

As a professional sustainability leader, Philip manages sustainability drivers for Milliken's global floor covering division, including leading educational courses about material health transparency issues and programs. Philip was recently voted to the Carpet American Recovery Effort (C.A.R.E.) board of directors, which works on market-based solutions for the elimination of post-consumer carpet going to landfills in the US. He graduated from Auburn University and is certified WELL Faculty, a LEED Green associate and a Lean/Six Sigma Black Belt.

Philip Ivey will share his insight and counsel of his sustainability journey over the past 30 years at Milliken—a global corporation that combines science, design and insight to tackle the issues and concerns of today with over 35 manufacturing facilities and 7,000 employees. He will convey the challenges and lessons learned along the way as well as how Milliken has created healthier materials that have spurred corporate opportunities and growth.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

(CONT.) 12:00 - 1:30

MODERATOR, SECOND ANNUAL RECOGNITION AWARD CEREMONY

MICHAEL MROZIAK

NEWS REPORTER, WBFO

Michael Mroziak is an experienced, award-winning journalist whose career began in 1992. Before joining WBFO, he worked at WHLD-AM (Niagara Falls), WBEN-AM, WNED-AM and WIVB-TV. He has also worked in print as sports editor of the Niagara Gazette (2013-2015) and freelancing. Additionally, Michael calls play-by-play online for the Buffalo Jr. Sabres hockey club and, beginning this June, the Niagara Power baseball club.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

RECYCLING TRACK: CARRYING IT OUT. PRICE DROPS AND PILE UPS - RECYCLING IN 2019
3RD FLOOR WEST

1:30 - 2:30

Session 1 - What Now - Market Forces and Recycling

Panel discussion moderated by Erin Moscati

ALAN DAVIS

VICE PRESIDENT OF POST COLLECTION OPERATIONS AND SALES, MODERN CORPORATION

Modern Corporation is a second-generation, locally owned solid waste and recycling company, based in Lewiston, NY. Alan's responsibilities include operations at Modern Landfill, Buffalo Recycling Enterprises, and NEI Transfer Station. He has spent 30 years with Waste Management and has been involved in multiple landfill gas to energy projects since the mid-eighties. Alan holds a Bachelor's Degree in Civil Engineering from Rochester Institute of Technology.

WARREN E. EMBLIDGE JR,

OWNER, ECOVERDE ORGANICS

Warren is committed to making environmental and social ecosystem impact investments, with a financial return. Warren's experiences buying coffee beans (for McCullagh, Inc) led him to implement the theory of change - i.e. money invested should cause measured changes - by investing in EcoVerde Organics, LLC. The company was formed in July 2017 and today has a team of nice associates, who advocate for beneficial environmental and social ecosystem action by collecting waste from generators, making compost and selling and distributing the product to retail and wholesale customers.

ADAM SHINE

VP OF MANITOBA, SUNNKING, UTILITY RECYCLERS INTERNATIONAL & SELL YOUR TECH

Adam has worked in the recycling industry for over 10 years and grew up around it as he represents the fourth generation at Manitoba Corporation. One of his main responsibilities is running day to day at a sister company Sunnking Inc. which focuses on Electronics Recycling. Over the past several years Adam, along with others have helped Sunnking expand from processing 12 million lbs. annually to over 25 million lbs. in 2018, which required Sunnking to expand from a 140,000 square foot facility to a new state of the art 204,000 square foot facility with automated processing capabilities.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

ERIN MOSCATI

SUSTAINABILITY EDUCATION MANAGER, UNIVERSITY AT BUFFALO

Erin is an environmental educator with UB Sustainability, where she has worked on a variety of sustainability issues relating to both the campus and the greater Buffalo community since 2000. Erin's range of projects has included recycling, composting, sustainable contracts and purchasing, energy conservation, preservation of green space, and identifying alternatives to pesticides.

RECYCLING TRACK (CONT.)
3RD FLOOR WEST

3:15 - 4:15

Session 2 - Use Something Else - Reacting to single use plastic legislation and consumer demands

Panel discussion moderated by Gary Carrel

DEBBIE FRIEDEL

DIRECTOR OF SUSTAINABILITY, DELAWARE NORTH COMPANIES

Debbie Friedel is responsible for implementing and managing the company's sustainability program. She has been with the company for a total of 16 years and prior to this role, she was the Director of Sustainability for Delaware North Parks and Resorts. Debbie is responsible for ensuring that each of Delaware North properties are implementing and managing environmental, interpretive, facilities stewardship and sustainability programs. She is engaged and works closely with others through community outreach and education to achieve balance for the health of our planet and ourselves.

TRACY SKALSKI

SUSTAINABILITY COORDINATOR, ERIE COUNTY

Tracy Skalski is the Sustainability Coordinator in the Erie County Department of Environment and Planning. She recently developed the County's Climate Action and Sustainability Plan for internal operations and is currently completing requirements to become a Certified Climate Smart Community. Additionally, Tracy oversees the initiatives of the County Green Team and is part of the Community Climate Change Task Force.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

JEFF WELCH

ASSOCIATE DIRECTOR OF OPERATIONS, HARMAC MEDICAL PRODUCTS

Harmac Medial Products is a Contract Manufacturer of Single Use Medical Devices. Harmac's Buffalo facility is ISO:14001 certified and the company has completed multiple recycling and sustainability projects. Jeff is responsible for all manufacturing operations at the 400 employee site in Buffalo as well as the Supply Chain operations for the Buffalo and Mexico facilities. In addition to his work at Harmac, Jeff also coaches hockey for the Buffalo Jr. Sabres.

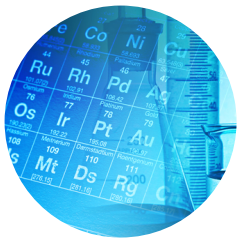

GARY CARREL

SOLID WASTE RECYCLING SPECIALIST, ERIE COUNTY DEPARTMENT OF ENVIRONMENT AND PLANNING

Gary has responsibilities related to hazardous waste, waste reduction and recycling. He works both with residents and departments within Erie County on ways to promote reuse, reduction and recycling. Additionally, Gary has been actively involved with numerous environmentally-based groups and organizations in the Buffalo area and is currently Co-Chair of the WNY Earth Day Steering Committee. He is the vice president of the New York State Association of Reduction, Reuse and Recycling where he is chair of their Single Use Plastics Committee and a member of the annual Conference planning committee.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

CHEMICAL FOOTPRINT TRACK
3RD FLOOR EAST

1:30 - 2:30

Session 1 – Developing your chemical footprint: How does tracking and reducing chemicals of high concern impact corporate performance?

Three panel presentations and discussions moderated by Alexandra McPherson

i) What is the Chemical Footprint Project (CFP) and why is it used by corporate leaders like Walmart, Target, CVS, HP, BD and Levis?
ii) CFP from a Manufacturer's Perspective
iii) Can Investors / Asset Managers Do Well by Doing Good?

CHERI PEELE

SENIOR RESEARCH ASSOCIATE, CLEAN PRODUCTION ACTION

Cheri joined the Clean Production Action staff in 2015, having been a CPA consultant from 2008. She works closely with government, non-profit, and business sectors at local, state, and national levels. Prior to her work as a consultant, Cheri was lead author of the Massachusetts Mercury Action Plan and both the Washington State Mercury and PBDE Chemical Action Plans.

PHILIP IVEY

GLOBAL STRATEGIC SUSTAINABILITY LEADER, MILLIKEN FLOORINGAS

As a professional sustainability leader, Philip manages sustainability drivers for Milliken's global floor covering division, including leading educational courses about material health transparency issues and programs. Philip was recently voted to the Carpet American Recovery Effort (C.A.R.E.) board of directors, which works on market-based solutions for the elimination of post-consumer carpet going to landfills in the US. He graduated from Auburn University and is certified WELL Faculty, a LEED Green associate and a Lean/Six Sigma Black Belt.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

JD HARTMAN

MANAGING PARTNER, SIGNITY FINANCIAL

JD focuses on sustainable responsible investing and provides forward-thinking financial strategies in line with client values. He has worked in the financial industry for nearly forty years - much of this time was spent in New York City as the Senior Managing Director of the Wall Street investment bank Lebenthal & Co.

ALEXANDRA MCPHERSON

PRINCIPAL, NIAGARA SHARE

Alexandra advances social and environmental entrepreneurship. She co-leads CoRE with the University at Buffalo and Clean Production Action (CPA). CoRE is investing in a regenerative solar economy. She manages the Investor Environmental Health Network (IEHN), housed at CPA, an organization she co-founded. IEHN builds corporate support for green chemistry and the Chemical Footprint Project.

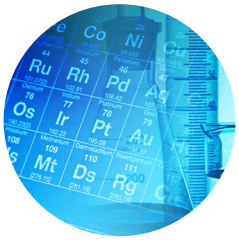

CHEMICAL FOOTPRINT TRACK (CONT.)
3RD FLOOR EAST

3:15 - 4:15

Session 2 - Greening your office space: Why is your reducing chemical footprint relevant to purchasing and the service sector?

Three panel presentations and discussions moderated by Alexandra McPherson

i) Material Safety - More Than Compliance
ii) Pesticide use reduction lowers your office's chemical footprint
iii) Roadmap to Environmental Health Leadership: Advancing a Non-Toxic, Just and Sustainable Circular Economy

SANDRA KERNS

MANAGER, MATERIAL SAFETY & COMPLIANCE, XEROX CORPORATION

Sandy holds a degree in Medical Science and practiced clinical medicine as a Physician Assistant in hospital and primary care settings for 25 years joining the Xerox Medical department in 1997. Earning her MS in EHS Management from RIT she has worked in EHS&S at Xerox since 2003, currently managing the Material Safety & Compliance team.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

LYNN BRABAND

SENIOR EXTENSION ASSOCIATE, NYS INTEGRATED PEST MANAGEMENT PROGRAM OF CORNELL UNIVERSITY

Lynn, a Certified Wildlife Biologist®, joined the NYS Integrated Pest Management (IPM) Program in May 1999 as an Extension Educator. Since joining the IPM Program, Lynn has had major responsibilities in assisting New York State schools and municipalities in the implementation of IPM.

BOBBI WILDING

DEPUTY DIRECTOR, CLEAN AND HEALTHY NEW YORK

Bobbi Wilding, MS, has two decades of experience as an environmental health advocate. She directs the national Getting Ready for Baby (GRfB) coalition. Bobbi is an author and co-author of numerous reports, including CHNY's Roadmap for Environmental Health Leadership. She serves on the NYS Pollution Prevention Institute's Advisory Board, and as a supporting member of the Interstate Chemicals Clearinghouse.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

ENERGY TRACK: A NEW ENERGY PARADIGM, MOVING TOWARDS AND ECONOMICALLY VIABLE AND RESILIENT FUTURE
2ND FLOOR WEST

1:30 - 2:30

Session 1 - Passive Survivability, Zero energy ready, and Resilience- The Future of the Built Environment

Moderated by Aliesa Adelman, Wendel

AMIR REZAEI: WHEN CRISIS STRIKES - PASSIVE THERMAL SURVIVABILITY FOR RESILIENCY

HIGH PERFORMANCE BUILDING ANALYST, CANNONDESIGN

Amir Rezaei is an engineer, a PhD and an energy data geek. He is continually pushing the boundary of performance modeling and analytics for high-performance building design. Amir's simulation approach is complemented by his collaborative approach to team integration. His professional goal and passion is help integrate advanced analysis methods within the building design process that would accelerate the adoption of net-zero and positive-energy design concepts.

JOSH STACK

CONSULTANT, RESILIENCE SCIENCE CONSULTING

Educated in biology and law at Cornell, NYU and SUNY UB (and in the Peruvian rain forest), Josh is a resilience science consultant, construction manager and sometimes recovering attorney, assisting clients in deliberating for our children's adaptive health and resilience. He focuses in translating resilience science and city and systems scale biomimicry to a diversity of design, construction, policy and planning and strategic community initiatives. He trains and speaks, internationally, on resilience science, sustainable design & construction and biomimicry.

DAN KEATING

MANAGER OF TECHNICAL SALES AND SUPPORT NATIONAL GRID

Dan's team of energy engineers and vendors support National Grid's and NYS's energy solutions goals. The team submerges in activities such as energy efficiency technology analyses, federal and state energy policy and demand response program implementation. Dan has been in the energy business for 17 years, holding positions in: Project Engineering - designing and building energy efficient building systems; Project Management for mechanical and electrical systems; Energy Efficiency Consulting - driving energy efficiency projects forward for commercial and industrial customers; and Jurisdictional Management - engaging National Grid's largest customers, elected officials and communities with the constantly evolving energy world we live in.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

ENERGY TRACK (CONT.)
2ND FLOOR WEST

3:15 - 4:15

Session 2 – The Leading Edge of Energy – Storage, Infrastructure, and Transportation

Moderated by Aliesa Adelman, Wendel

JON M. WILLIAMS

CEO, OSC HOLDING INC AND VIRIDI PARENTE

Jon M. Williams founded OSC Holding, Inc. in 1997 as a Full Service Specialty Contracting Provider. Today, OSC operates across North and South America with Corporate Offices in Buffalo, New York, and a Divisional Office in Toronto, Ontario. OSC works mostly for private chemical and industrial manufacturing firms with contracting requirements in the areas of Environmental Remediation, Civil Construction and Brownfield ReDevelopment. Mr. Williams is the driving force behind Viridi Parente and its' subsidiaries - Green Machine, Inc. and Volta Energy Products.,

JOHN HAVRILLA

DIRECTOR OF ALTERNATIVE FUEL, WENDEL

John Havrilla is a knowledgeable energy executive, with a strong financial background, and over 35 years of industry experience. Mr. Havrilla has vast experience in energy and alternative fuel plant design, construction, and operation including hydro and renewable energy facilities. John currently leads Wendel's national alternative energy initiatives and projects.

PAUL TYNO

STRATEGIC ADVISOR ENERGY INITIATIVES, BUFFALO NIAGARA MEDICAL CAMPUS, INC. & PROGRAM DIRECTOR, EMERGING CLEANTECH OPPORTUNITY (ECO) INCUBATOR

In his role with the BNMC, Inc. Paul is responsible for executing the campus Energy Innovation Plan and further developing its overall energy strategy as a collective effort. That effort strives to integrate energy efficiency, demand management, grid modernization, alternative transportation and renewable energy in fostering a sustainable, growing community. Launch NY's Emerging Cleantech Opportunity (ECO) Incubator is part of the six incubators administered by New York State Energy Research & Development Authority (NYSERDA), for high-growth cleantech companies. ECO provides 1-on-1 mentoring, support, networking events, and access to funding and additional NYSERDA resources, to support early-stage companies to help them achieve key milestones and accelerate their time to market.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

ALIESA ADELMAN

ASSOCIATE PRINCIPAL, WENDEL

Aliesa Adelman is an Associate Principal at Wendel, serving as an Account Executive and Director of Sustainability. She serves as a client liaison and leader in developing new opportunities that focus on energy efficiency, decarbonization, and creating healthy environments. Aliesa currently serves as Vice President for the Western New York Sustainable Business Roundtable Board of Directors; Advisory Board Member ECO Incubator; Urban Land Institute Women's Leadership Initiative Committee Member; Co-chairs the Climate Action Planning Working Group for the American Public Transportation Association; and contributor to the National Academies of Science research panels.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

COMMUNITY PARTNERSHIPS TRACK
2ND FLOOR EAST

1:30 - 2:30

Session 1 - Business, Natural Resources and Environmental Justice

Moderated by Tiffany Vanderwerf, facilitating two panel presentations and discussions

i) Just Transition, Protecting Natural Resources and Empowering Community
ii) New York Power Authority's Environmental Justice Initiatives

RAHWA GHIRMATZION

EXECUTIVE DIRECTOR, PUSH BUFFALO

Rahwa Ghirmatzion was born in Asmera, Eritrea in the middle of a civil war. She came to Western New York as a refugee at the age of eight with her family, after living in Sudan. She was educated in Buffalo Public Schools and SUNY at Buffalo. In 2018, she became executive director of People United for Sustainable Housing (PUSH Buffalo), a community organization that works at the grassroots to create and implement a comprehensive revitalization plan for Buffalo's West Side, with more than $40 million invested in affordable housing rehabilitation, local hiring, weatherization and green infrastructure.

LISA PAYNE WANSLEY

VICE PRESIDENT, ENVIRONMENTAL JUSTICE & SUSTAINABILITY AT THE NEW YORK POWER AUTHORITY

Lisa Payne Wansley currently oversees the corporate responsibility initiatives of the New York Power Authority. She is responsible for providing the overall vision and guidance statewide for both the Environmental Justice and Sustainability Units through policy development, goal setting, program development & implementation, community relations, internal training, employee engagement and resource planning.

TIFFANY VANDERWERF

CHIEF CONSERVATION OFFICER AT THE BUFFALO ZOO

The Curator of Education at the Buffalo Zoo with 20 years of experience in the Zoo industry and 18 yearsin senior management, with a strong passion for wildlife conservation and sustainability.

BUILDING YOUR BUSINESS - REDUCING YOUR FOOTPRINT

COMMUNITY PARTNERSHIPS TRACK (CONT.)
2ND FLOOR EAST

3:15 – 4:15

Session 2: Innovative collaborations, with hands on examples from a business & non-profits perspective
Moderated by Tiffany Vanderwerf, facilitating two panel presentations and discussions:

i) Building a Sustainable Refugee Workforce for Shared Economic Prosperity
ii) To be announced

JACQUELINE ASHBY

DIRECTOR OF EDUCATION, JOURNEY'S END REFUGEE SERVICES

A multilingual teacher from Toronto, I immigrated to the US 7 years ago. After teaching at private and public schools in Canada and the US, I joined Journey's End as a teacher in the MAC Alternative High School Program before transitioning into a directorship. Currently we offer 4 programs; Adult & High School; corporate English classes; & manufacturing worker training.

JENNA WALCZAK

GREEN SHOOTS FOR NEW AMERICANS PROGRAM MANAGER, JOURNEY'S END REFUGEE SERVICES

An urban farmer who grew up gardening in her family backyard in Western New York. Jenna graduated from Colgate University with a B.A. in Biology and Environmental Studies. Her passion lies at the intersection of environmental and social issues. Jenna enjoys helping others access the materials, space, and knowledge to grow food for themselves and their families.
