TUESDAY SEPTEMBER 22

BUSINESS RESILIENCY TODAY

2:00 PM Welcome & Opening Remarks

Keynote Panel 1 - Supply Chain Resiliency:
Why, What and How?

What tools & best practices reduce vulnerabilities in supply chains and create more stability & optimization? How can embedding safer chemical use, worker health and safety lead to more transformational relationships? And how can this type of stability in supply chains be of value when an organization is forced to work through major challenges such as global pandemic?

3:00 PM Interactive Icebreaker Polls & Coffee Your Way

3:15 PM Keynote Panel 2 - Moving towards a future of
Regeneration, Innovation & Net Positive Impact

What's the future of sustainable business? How do businesses move from less bad, to create regenerative and net positive impact? What is fueling companies who are leading in this space & what do we have to learn from Chemical Footprint Forerunners?

4:15 PM Speed Networking in smaller groups & Vendor Rooms
